

4 - Gang Wall Plate, GFCI, Switch and Two Toggle Openings, Night Black Brass, 120V/15A

- Brass construction with Night Black all-black finish
- Rated 120 V / 15 A for standard branch circuits
- IP20 rating suited to non-waterproof, dry indoor locations
- UL listed for verified electrical compliance
- Backed by a 1-year manufacturer warranty
- Four gang openings: one GFCI, one switch and two toggles

OVERVIEW

The C-VTG-AB-4-G-S-T-T is a 4-gang wall plate finished in Night Black all-black brass, configured with one GFCI opening, one switch opening and two toggle openings. It is suited for residential and commercial supply installations where a uniform dark finish and metal construction are required.

Constructed from brass, the plate supports 120 V / 15 A service and carries an IP20 rating, making it appropriate for standard indoor dry-location use.

The device is UL listed and backed by a 1-year warranty.
