

5 - Gang Vintage Wall Plate, Night Black Brass, GFCI, Three Switches and USB, 120V/15A UL

- 5 - gang configuration with GFCI, three toggle switches, and USB opening
- Brass construction with Night Black all - black finish
- IP20 rated for interior, Non - Waterproof environmental rating
- Rated 120V at 15A for standard residential circuits
- UL listed device
- 1 - year manufacturer warranty

OVERVIEW

The C-VTG-AB-5-G-S-S-S-U is a 5-gang vintage-style wall plate finished in Night Black over an all-black brass construction. The configuration provides one GFCI opening, three toggle switch openings, and one USB opening, suited for coordinated multi-device wall installations in residential or light commercial interiors.

Constructed from brass, the plate carries an IP20 rating for interior use, offering protection against solid objects larger than 12 mm, consistent with its Non-Waterproof environmental rating. It is rated for 120V/15A service, matching standard North American residential wiring circuits.

The unit is UL listed and backed by a 1-year warranty.
