

3-Gang Brass Wall Plate with GFCI, Toggle and USB Openings, Black and Gold Finish, 120V/15A, UL Listed

- Three-gang layout with GFCI, toggle and USB openings
- Solid brass body finished in black and gold
- Rated for 120V circuits at 15A
- IP20 ingress protection rating for indoor use
- UL listed
- Backed by a 1-year warranty

OVERVIEW

The C-VTG-BG-3-G-T-U is a 3-gang wall plate configured with one GFCI opening, one toggle opening and one USB opening, built from solid brass and finished in black and gold. It is part of a configurable Build Your Own series that lets contractors and installers select gang count, opening layout and finish to match project requirements for residential and light commercial wiring.

The plate is rated for 120V circuits at 15A and carries an IP20 ingress protection rating, classifying it as non-waterproof for indoor dry-location use.

The device is UL listed and backed by a 1-year warranty.
