

4-Gang Brass Wall Plate, One Decorator, One GFCI and Two Switch Openings, Black and Gold, 120V/15A, UL Listed

- Combines one decorator, one GFCI and two toggle switch openings in a 4-gang layout
- Brass plate construction with black and gold finish
- Rated for 120V/15A electrical circuits
- UL listed for code-compliant installation
- IP20 rated, non-waterproof for indoor dry-location use
- Backed by a 1-year manufacturer warranty

OVERVIEW

The C-VTG-BG-4-D-G-S-S is a 4-gang wall plate built from brass and finished in black and gold, combining one decorator opening, one GFCI opening and two toggle switch openings in a single frame. It is intended for residential and light commercial wiring jobs where multiple device types need a unified, finished appearance on one plate.

The plate is rated for 120V/15A circuits and carries an IP20, non-waterproof environmental rating, making it suitable for standard interior installations rather than wet or damp locations. It is UL listed and backed by a 1-year warranty.
