

4 - Gang Wall Plate with Decorator, GFCI, Switch and Toggle Openings, Brass, 120V/15A, Black and Gold

- 4-gang configuration with decorator, GFCI, switch, and toggle openings
- Brass construction for durability in indoor installations
- Rated for 120 V / 15 A residential and light commercial circuits
- IP20 rating for standard indoor dry-location use
- UL listed for compliance verification
- Black and gold finish for a vintage decorative appearance

OVERVIEW

The C-VTG-BG-4-D-G-S-T is a build-your-own 4-gang wall plate finished in black and gold, intended for residential and light commercial wiring applications. It combines one decorator opening, one GFCI opening, one switch opening, and one toggle opening in a single multi-gang assembly for consolidated control points in custom installation projects. Constructed from brass, the plate is rated for 120 V / 15 A circuits and carries an IP20 rating, indicating suitability for standard indoor dry-location installations. The assembly is UL listed and backed by a 1-year warranty.
