

4 - Gang Wall Plate, Three Toggle Switches and One USB Opening, Black and Gold Brass, 120V 15A

- 4 - gang configuration with three toggle switch openings and one USB opening
- Brass construction with black and gold finish
- Rated 120V at 15A for standard residential circuits
- IP20 rated, non - waterproof, for indoor installation only
- UL listed for compliance verification
- Backed by a 1 - year warranty

OVERVIEW

The C-VTG-BG-4-S-S-S-U is a 4 - gang wall plate configured with three toggle switch openings and one USB opening, finished in black and gold brass. It is designed for multi - device installations in upscale residential and light commercial environments where switching and USB charging are combined at a single location.

The brass construction provides a durable, decorative finish suited for specification projects where aesthetics and material quality are priorities. The plate is rated for 120V, 15A circuits and carries an IP20, non - waterproof environmental rating for indoor use.

The device is UL listed and backed by a 1 - year warranty.
