- IP20, Non - Waterproof environmental rating for interior use
- UL listed
- 1 - year manufacturer warranty

OVERVIEW

The C-VTG-BG-5-G-G-S-T-U is a 5 - gang wall plate finished in black and gold brass, configured with two GFCI openings, one standard switch opening, one toggle switch opening, and one USB opening. It is intended for residential supply points where multiple device types are combined at a single location. The plate is rated for 120V/15A service and carries a Non - Waterproof, IP20 environmental rating, making it suitable for standard interior wall installations rather than wet or damp locations. Brass construction supports the coordinated black and gold aesthetic used in upscale residential or hospitality interiors. The product is UL listed and backed by a 1 - year warranty.
