

5 - Gang Wall Plate, Black and Gold Brass Finish, UL Listed, 120V/15A

- Five-gang configuration with two standard openings and three USB openings
- Black and gold brass finish for a coordinated residential aesthetic
- Constructed of brass for durability in dry indoor environments
- Rated for 120V, 15A circuits
- IP20 non-waterproof environmental rating for indoor use
- UL listed and backed by a 1-year warranty

OVERVIEW

The C-VTG-BG-5-G-G-U-U-U is a 5-gang wall plate finished in black and gold brass, designed for residential electrical installations requiring a coordinated, decorative device layout. This build-your-own configuration includes two standard openings and three USB openings across the five-gang plate, suitable for combined power and charging applications in a single location.

The plate is constructed of brass and carries an IP20 non-waterproof environmental rating, intended for dry, indoor use. It supports a 120V, 15A circuit rating and is UL listed for compliance with recognized electrical safety standards. A 1-year warranty is provided on the unit.
