

5 - Gang Wall Plate, Two Toggle and Three USB Openings, Brass, Black and Gold, 120V/15A

- Five-gang configuration with two toggle and three USB openings
- Brass construction for durability in wiring device applications
- Black and gold finish for decorative residential installations
- Rated for 120 V / 15 A electrical circuits
- IP20 environmental rating for indoor dry-location use
- UL listed with 1-year manufacturer warranty

OVERVIEW

The C-VTG-BG-5-T-T-U-U-U is a 5-gang wiring device wall plate finished in black and gold, configured with two toggle switch openings and three USB port openings. It is intended for residential supply applications requiring a combination of toggle switch control and USB charging capability within a single unified faceplate assembly.

Constructed from brass, the wall plate is rated for 120 V / 15 A circuits and carries an IP20 environmental rating and Non-Waterproof classification, suitable for standard indoor dry-location installations.

The device is UL listed and backed by a 1-year warranty.
