

Bronze with Patina 1 - Gang Wall Plate, 120V/15A, Brass, UL Listed

- Single-gang wall plate for standard wiring device openings
- Bronze with patina finish over solid brass construction
- Rated 120V at up to 15A for residential branch circuits
- IP20 rating for indoor dry-location, non-waterproof use
- UL listed for compliance verification
- Backed by a 1-year manufacturer warranty

OVERVIEW

The C-VTG-BP-1-S is a single-gang wall plate finished in bronze with patina, intended for residential wiring device installations such as switches or receptacles. Constructed from brass, it provides a decorative cover suitable for conventional indoor outlet or switch openings.

Rated for 120V service at up to 15A, this wall plate suits standard residential branch circuit applications. Its IP20 rating indicates protection against solid objects greater than 12mm, appropriate for indoor dry-location use, and it carries a non-waterproof environmental rating.

The device is UL listed and backed by a 1-year warranty.
