

2 - Gang Wall Plate, Bronze with Patina Finish, Brass, 120V/15A, UL Listed

- 2-gang configuration for residential wall plate installations
- IP20 rated for dry indoor environments
- Brass construction with bronze-with-patina finish
- UL listed
- Rated for 120V service at 15A
- 1-year warranty coverage

OVERVIEW

The C-VTG-BP-2-G-G is a 2-gang wall plate finished in bronze with patina, intended for decorative electrical installations where a vintage or aged-metal aesthetic is required. It supports a build-your-own residence supply configuration and suits interiors where standard white or almond finishes do not match the design intent.

Constructed from brass, the wall plate is rated for 120V service at 15A and carries an IP20 rating, indicating suitability for dry indoor environments rather than wet or damp locations. The bronze-with-patina finish provides a distinctive appearance consistent with traditional or period-appropriate interior schemes.

The device is UL listed and carries a 1-year warranty.

SPECIFICATIONS

OPTICAL
