

3-Gang Wall Plate, Decorator, GFCI and Switch Openings, Bronze with Patina, 120V/15A

- 3-gang configuration with decorator, GFCI and switch openings
- Brass construction with bronze with patina finish
- Rated for 120V/15A electrical circuits
- IP20 rated for indoor dry-location use
- UL listed for verified safety compliance
- Backed by a 1-year manufacturer warranty

OVERVIEW

The C-VTG-BP-3-D-G-S is a 3-gang wall plate finished in bronze with patina, combining one decorator opening, one GFCI opening, and one switch opening in a single brass cover. The vintage-style finish suits installations where appearance and device function must align, such as hospitality renovations, historic properties, or upscale residential builds.

Constructed from brass, this wall plate is rated for 120V/15A circuits and carries an IP20 rating for standard indoor dry-location use in non-waterproof environments.

The device is UL listed and backed by a 1-year warranty.
