

3-Gang Wall Plate, Decorator/GFCI/USB Openings, Bronze with Patina, UL Listed, 120V/15A

- Three-gang configuration with decorator, GFCI, and USB openings
- Brass construction with bronze with patina finish
- Rated 120V and 15A for standard branch circuit wiring
- IP20 rated for dry, non-waterproof indoor locations
- UL listed device
- Backed by a 1-year warranty

OVERVIEW

The C-VTG-BP-3-D-G-U is a 3-gang wall plate finished in bronze with patina, configured with one decorator opening, one GFCI opening and one USB opening. It is built from brass and sized for standard multi-gang electrical boxes in residential and light commercial wiring applications.

The plate is rated for 120V/15A service and carries an IP20 rating, suited to dry indoor, non-waterproof locations. The bronze with patina finish gives a period-appropriate appearance for restoration work or upscale residential installations where standard white or ivory plates are not appropriate.

The device is UL listed and backed by a 1-year warranty.
