

4-Gang Wall Plate, Two Duplex, One GFCI and One Switch Opening, Bronze with Patina, 120V 15A

- Configured for two duplex, one GFCI and one switch opening
- Brass construction with bronze with patina finish
- Rated for 120V/15A electrical service
- IP20 rated for indoor dry-location use
- Non-waterproof environmental rating
- UL listed, backed by a 1-year warranty

OVERVIEW

The C-VTG-BP-4-D-D-G-S is a 4-gang wall plate finished in bronze with patina, configured with two duplex openings, one GFCI opening and one switch opening. It is intended for residential supply applications where a decorative metal finish is paired with a standard multi-device configuration, suiting both renovation and new construction wiring projects.

Constructed from brass with a bronze patina finish, the plate is rated for 120V/15A service and carries an IP20 rating, indicating suitability for standard indoor dry-location installations rather than wet or damp environments.

The plate is UL listed and carries a 1-year warranty.
