

4-Gang Wall Plate, Bronze with Patina Finish, Decorator/GFCI/USB Openings, 120V 15A

- Bronze with patina finish for period or transitional decor
- Brass construction for durability in dry-location settings
- 4-gang configuration with decorator, GFCI and dual USB openings
- Rated for 120V/15A standard branch circuit service
- IP20 environmental rating for indoor dry-location use
- UL listed and backed by a 1-year warranty

OVERVIEW

The C-VTG-BP-4-D-G-U-U is a 4-gang wall plate finished in bronze with patina, configured with one decorator opening, one GFCI opening and two USB openings. It is intended for residential supply applications where a period-appropriate or transitional aesthetic is paired with modern device configurations.

Constructed from brass with an IP20 rating, the plate suits standard interior dry-location installations rated for 120V/15A branch circuit service consistent with North American wiring practice.

The product is UL listed and carries a 1-year warranty.
