

4 - Gang Wall Plate, Bronze with Patina Finish, Brass, 120V/15A, UL Listed

- 4-gang configuration for multiple wiring device openings
- Rated 120V/15A for standard residential circuits
- Brass construction for corrosion resistance and durability
- IP20 rated for dry indoor environments
- Bronze with patina finish for a traditional aged-metal look
- UL listed with 1-year warranty coverage

OVERVIEW

The C-VTG-BP-4-G-G-S-S is a 4-gang wall plate finished in bronze with patina, constructed from brass for use in residential wiring installations. It suits applications where a traditional, aged-metal aesthetic is specified alongside standard device openings.

The plate is rated for 120V/15A service and carries an IP20 rating, making it suitable for dry indoor environments. Its brass construction provides corrosion resistance for long-term interior use.

The unit is UL listed and backed by a 1-year warranty.

SPECIFICATIONS

OPTICAL

LED Lifetime	50,000 h
