

4-Gang Wall Plate, Brass, Bronze with Patina Finish, 120V/15A

- 4-gang configuration for multiple device openings
- Brass construction for corrosion resistance
- Bronze with patina finish for a vintage aesthetic
- Rated 120V/15A for standard residential circuits
- IP20 rating suitable for dry indoor locations
- UL listed with a 1-year warranty

OVERVIEW

The C-VTG-BP-4-G-G-S-T is a 4-gang wall plate finished in bronze with patina, constructed from brass. It is designed for residential wiring applications where a traditional or vintage aesthetic is required alongside durable metal construction.

The plate is rated for 120V/15A service and carries an IP20 rating, suitable for dry indoor environments. The brass construction provides corrosion resistance and long-term finish stability in typical interior conditions.

The device is UL listed and backed by a 1-year warranty.
