

4-Gang Wall Plate, Two GFCI, One Toggle and One USB Opening, Bronze with Patina, Brass, 120V/15A

- 4-gang configuration with two GFCI, one toggle and one USB opening
- Bronze with patina finish over brass construction
- Rated for 120V/15A residential electrical service
- IP20 rated for dry indoor, non-waterproof environments
- UL listed for compliance with electrical safety standards
- Backed by a 1-year manufacturer warranty

OVERVIEW

The C-VTG-BP-4-G-G-T-U is a 4-gang wall plate finished in bronze with patina, constructed from brass. The configuration includes two GFCI openings, one toggle switch opening and one USB opening, allowing multiple device types to be combined on a single plate for residential wiring applications.

The plate is rated for 120V/15A service and carries an IP20 rating, suitable for dry indoor environments. It is built for use in standard residential wiring systems where an aged-metal aesthetic is desired alongside multi-device functionality.

The device is UL listed and backed by a 1-year warranty.
