

4-Gang Wall Plate, Two GFCI and Two USB Openings, Bronze with Patina, Brass, UL Listed

- 4-gang configuration with two GFCI and two USB openings
- Rated 120 V / 15 A for standard residential circuits
- Brass construction for durability in residential installations
- IP20 environmental rating for indoor dry locations
- Bronze with patina finish for a traditional aesthetic
- UL listed with 1-year warranty

OVERVIEW

The C-VTG-BP-4-G-G-U-U is a 4-gang wall plate finished in bronze with patina, configured with two GFCI-style openings and two USB openings. It is intended for residential electrical supply applications where a traditional, aged-metal aesthetic is specified alongside modern device functionality.

Constructed from brass, the plate is rated for 120 V circuits at 15 A and carries an IP20 environmental rating, suitable for standard indoor dry locations. It is not rated for wet or waterproof applications.

The device is UL listed and backed by a 1-year warranty.
