

Bronze with Patina 4-Gang Wall Plate, GFCI, Switch and Toggle Openings, Brass, 120V/15A, UL Listed

- 4-gang configuration with GFCI, dual switch and toggle openings
- Constructed from solid brass for durable metal wall plate installation
- Finished in bronze with patina for a vintage aesthetic
- Rated 120V/15A for standard residential electrical service
- IP20, non-waterproof rating for indoor dry-location use
- UL listed with a 1-year manufacturer warranty

OVERVIEW

The C-VTG-BP-4-G-S-S-T is a 4-gang wall plate finished in bronze with patina and constructed from brass, configured with one GFCI opening, two switch openings and one toggle opening. It suits residential supply applications where a vintage metal finish is paired with a mixed-device layout.

The plate is rated for 120V/15A service with an IP20, non-waterproof rating, making it appropriate for standard indoor dry-location installations. It carries UL listing and a 1-year warranty.
