

Bronze with Patina 4-Gang Brass Wall Plate, 120V/15A, UL Listed

- 4-gang configuration for multi-device wall openings
 - Solid brass construction with bronze with patina finish
 - Rated for 120V/15A residential circuits
- IP20 rated for dry indoor environments
 - UL listed for code-compliant installations
 - Backed by a 1-year warranty

OVERVIEW

The C-VTG-BP-4-G-S-S-U is a 4-gang brass wall plate finished in bronze with patina, designed for residential supply applications where a traditional or vintage aesthetic is required. It is suited for standard interior electrical installations requiring a multi-gang cover plate configuration.

Constructed from brass with a bronze patina finish, this wall plate is rated for indoor use at IP20, making it appropriate for dry interior environments. It is compatible with 120V/15A circuits standard to North American residential wiring.

The device is UL listed and carries a 1-year warranty.
