

4 - Gang Wall Plate, GFCI/Toggle/Toggle/USB Openings, Bronze with Patina, Brass, 120V 15A, UL Listed

- 4-gang configuration with GFCI, toggle, toggle and USB openings
- Brass construction for durability under the applied finish
- Bronze with patina finish for a period-appropriate appearance
- Rated 120V, 15A for standard residential and light commercial circuits
- IP20 rated, non-waterproof, for dry indoor installation
- UL listed with 1-year warranty

OVERVIEW

The C-VTG-BP-4-G-T-T-U is a 4-gang wall plate finished in bronze with patina, configured with one GFCI opening, two toggle openings and one USB opening. It suits residential and light commercial wiring projects where a coordinated vintage metal finish is specified across multiple device types on a single plate.

The plate is rated for 120V, 15A service and carries an IP20 rating, indicating suitability for dry indoor, non-waterproof environments. Construction is brass, providing a durable base for the bronze with patina finish.

The device is UL listed and backed by a 1-year warranty.

SPECIFICATIONS

OPTICAL

LED Lifetime	50,000 h
