

5 - Gang Wall Plate, Bronze with Patina Finish, Four Decorator Openings and One GFCI Opening

- Brass construction for durability in indoor wiring applications
 - Rated for 120 V circuits at up to 15 A
 - IP20 environmental rating for dry indoor use
- UL listed for code compliance verification
 - Bronze with Patina decorative finish
 - Five-gang layout with four decorator openings and one GFCI opening

OVERVIEW

The C-VTG-BP-5-D-D-D-D-G is a five-gang wall plate finished in bronze with patina, configured with four decorator openings and one GFCI opening. It is intended for residential supply applications where a period-appropriate metal finish is paired with standard multi-gang wiring device layouts.

Constructed from brass, the plate is rated for 120 V circuits at up to 15 A and carries an IP20 environmental rating, suitable for dry indoor locations.

The device is UL listed and backed by a 1-year warranty.
