

5 - Gang Wall Plate, Duplex, Three GFCI and USB Openings, Bronze with Patina Finish, 120V 15A

- Bronze with patina finish over solid brass construction
- Configured for one duplex, three GFCI and one USB opening
- Rated for 120 V service at up to 15 A
- IP20 rated for standard indoor dry-location use
- UL listed with a 1-year warranty

OVERVIEW

The C-VTG-BP-5-D-G-G-G-U is a 5-gang wall plate finished in bronze with patina, configured with one duplex opening, three GFCI openings, and one USB opening. It is intended for residential and light commercial supply applications where a decorative metal finish is paired with a mixed device configuration.

Constructed from brass with an IP20 rating and a non-waterproof environmental rating, the plate is suited to standard indoor dry-location installations. It is rated for 120 V service at up to 15 A, consistent with typical branch circuit requirements for residential wiring devices.

The assembly is UL listed and carries a 1-year warranty.
