

5 - Gang Wall Plate, One Decorator, Two GFCI, Two USB Openings, 120V/15A, Bronze Patina

- Five-gang layout with one decorator, two GFCI and two USB openings
- Brass construction with bronze with patina finish
- Rated for 120 V / 15 A electrical service
- IP20 rated for non-waterproof, dry indoor use
- UL listed for compliance verification
- Backed by a one-year manufacturer warranty

OVERVIEW

The C-VTG-BP-5-D-G-G-U-U is a five-gang wall plate finished in bronze with patina, configured with one decorator opening, two GFCI openings and two USB openings. It suits residential and light commercial wiring installations where a vintage or aged-metal aesthetic is specified alongside standard device configurations.

Constructed from brass with a bronze patina finish, the plate is rated for 120 V / 15 A service and carries an IP20 rating for dry indoor environments. The five-gang layout consolidates decorator, GFCI and USB device openings into a single cover, reducing the need for separate plates in mixed outlet groupings.

The assembly is UL listed and backed by a one-year warranty.
