

5 - Gang Brass Wall Plate, Bronze Patina Finish, Four Decorator Openings and One Toggle Switch Opening, 120V/15A

- Five-gang brass wall plate with bronze patina finish
- GGGGS layout: four decorator openings, one toggle switch opening
- Rated 120 V / 15 A for standard residential circuits
- IP20 rated for dry, non-waterproof interior locations
- UL listed for verified safety compliance
- Backed by a 1-year manufacturer warranty

OVERVIEW

The C-VTG-BP-5-G-G-G-G-S is a 5-gang wall plate machined from solid brass and finished in bronze with patina, intended for residential and light commercial supply applications where a traditional hardware appearance is specified. The GGGGS configuration provides four decorator-style openings and one toggle switch opening for combined device installations.

Constructed from brass for long-term dimensional stability and finish retention, the plate is rated for 120 V / 15 A service and carries an IP20 rating, suitable for standard interior dry-location use. It is not intended for wet or damp locations.

The device is UL listed and backed by a 1-year warranty.
