

Five - Gang Combination Wall Plate, Bronze with Patina Finish, 120V/15A, UL Listed

- Five-gang wall plate with three decorator openings, one switch opening, and one toggle opening
- Brass construction with a bronze with patina finish
- Rated for 120 V / 15 A residential and light commercial circuits
- IP20 rated for standard indoor dry-location installations
- UL listed for compliance verification
- Backed by a 1 - year manufacturer warranty

OVERVIEW

The C-VTG-BP-5-G-G-G-S-T is a five-gang combination wall plate finished in bronze with patina, built for residential and light commercial wiring applications. The GGGST configuration provides three decorator openings, one switch opening, and one toggle opening within a single gang location, allowing multiple device types to be mounted together.

Constructed from brass, the plate is rated for 120 V / 15 A circuits and carries an IP20 rating for standard indoor dry -location use.

The device is UL listed and backed by a 1 - year warranty.
