

# 5 - Gang Brass Wall Plate, Bronze Patina Finish, GFCI and Toggle Openings, UL Listed

- 5-gang configuration with two GFCI, one standard and two toggle openings
- Machined from solid brass for durability in wiring device applications
- Bronze with patina finish for a vintage hardware appearance
- Rated for 120 V, 15 A wiring devices
- IP20 rated for interior, non-waterproof installations
- UL listed and backed by a 1-year warranty

## OVERVIEW

The C-VTG-BP-5-G-G-S-S-T is a 5-gang wall plate machined from brass and finished in bronze with patina, intended for residential and commercial wiring installations requiring a vintage appearance. The GGSST configuration provides two GFCI openings, one standard opening and two toggle openings within a single plate.

The plate is rated for interior use with an IP20 environmental rating and is not intended for wet locations. It is compatible with standard 120 V, 15 A wiring devices common in North American installations.

The assembly is UL listed and carries a 1-year warranty.

## SPECIFICATIONS

### OPTICAL

|              |          |
