

5 - Gang Brass Wall Plate, Bronze with Patina Finish, 2 GFCI and 3 Toggle Openings

- 5 - gang configuration with two GFCI and three toggle openings (GGTTT)
 - Solid brass construction with bronze patina finish
 - Rated for 120 V service at 15 A
- IP20 rating for non - waterproof, dry indoor use
 - UL listed
 - 1 - year manufacturer warranty

OVERVIEW

The C-VTG-BP-5-G-G-T-T-T is a 5 - gang brass wall plate finished in bronze with patina, configured in a GGTTT layout to provide two GFCI receptacle openings and three toggle switch openings. It suits residential supply installations where a decorative metal finish is specified alongside standard electrical device configurations.

Constructed from brass with a bronze patina finish, the plate is rated for 120 V service at 15 A and carries an IP20 rating for non - waterproof, dry indoor environments.

The device is UL listed and backed by a 1 - year warranty.
