

5 - Gang Wall Plate with GFCI and Four Toggle Switch Openings, Bronze Patina Brass, 120V/15A

- 5 - gang configuration with one GFCI opening and four toggle switch openings
- Brass construction with bronze patina finish
- Rated 120V at 15A for standard residential circuits
- IP20 rated, suited to dry indoor, non - waterproof locations
- UL listed
- 1 - year warranty

OVERVIEW

The C-VTG-BP-5-G-S-S-S-S is a 5 - gang wall plate configured with one GFCI opening and four toggle switch openings, finished in bronze with patina over brass construction. It is intended for custom residential wiring installations where decorative or period-appropriate hardware is specified alongside functional switch and GFCI control in a single plate.

The device is rated for 120V/15A service and carries an IP20 rating, indicating suitability for dry indoor environments only. Brass construction with a bronze patina finish provides the appearance associated with vintage - style residential hardware.

The assembly is UL listed and backed by a 1 - year warranty.
