

5 - Gang Brass Wall Plate, Bronze with Patina Finish, 15A 120V, GSSST Configuration

- Brass construction with bronze with patina finish
- 5 - gang configuration combining toggle and decorator openings (GSSST)
- Rated 15 A at 120 V for standard residential circuits
- IP20, Non - Waterproof rating for interior dry - location use
- UL listed for compliance verification
- Backed by a 1 - year manufacturer warranty

OVERVIEW

The C-VTG-BP-5-G-S-S-S-T is a 5 - gang brass wall plate finished in bronze with patina, built for residence supply wiring installations requiring a classic, aged aesthetic. The GSSST configuration accommodates a mix of toggle and decorator - style device openings across five gang positions, suitable for multi - switch or mixed - device layouts in upscale residential or hospitality settings.

The plate is rated for 15 A at 120 V and carries a Non - Waterproof, IP20 environmental rating, making it appropriate for standard interior dry - location use only.

The device is UL listed and backed by a 1 - year warranty.
