

5 - Gang Wall Plate, GFCI, Three Toggle Switches, USB, Bronze with Patina Brass, 120V/15A

- 5 - gang configuration with GFCI, three toggle switches and USB opening
- Brass construction with bronze with patina finish
- Rated for 120V service at 15A
- IP20 rated for dry indoor environments
- UL listed for code - compliant installation
- Backed by a 1 - year manufacturer warranty

OVERVIEW

The C-VTG-BP-5-G-S-S-S-U is a 5 - gang wall plate finished in bronze with patina and constructed from brass. The configuration includes one GFCI receptacle opening, three toggle switch openings and one USB opening, suited for residential interiors where a vintage aesthetic is specified.

The assembly is rated for 120V/15A service and carries an IP20 rating, indicating suitability for dry indoor environments with protection against solid objects greater than 12mm. It is classified as non - waterproof and intended for interior use only.

The device is UL listed and backed by a 1 - year warranty.
