

5 - Gang Wall Plate, GFCI, Standard and Toggle Openings, Bronze with Patina, 120V/15A

- Five-gang configuration with GFCI, standard and toggle openings
- Brass construction with bronze with patina finish
- Rated for 120V/15A electrical service
- IP20 rated for non-waterproof, dry-location use
- UL listed for compliance verification
- Backed by a 1-year manufacturer warranty

OVERVIEW

The C-VTG-BP-5-G-S-S-T-T is a five-gang wall plate finished in bronze with patina, configured with one GFCI opening, two standard openings and two toggle openings to accommodate multiple device types within a single assembly. It suits residential supply installations where a decorative metal finish is required alongside mixed-device functionality in one location.

Constructed from brass with a bronze patina finish, the plate is rated for 120V/15A service and carries an IP20 rating for standard interior dry-location use. It is UL listed and backed by a 1-year warranty.
