

5 - Gang Brass Wall Plate, Bronze Patina Finish, GFCI, Toggle and USB Openings, 120V 15A

- Solid brass construction with bronze with patina finish
- 5 - gang configuration combining GFCI, toggle switch, and USB openings
- UL listed for 120V, 15A residential and commercial circuits
- IP20 rated for non - waterproof, indoor installations
- 1 - year manufacturer warranty

OVERVIEW

The C-VTG-BP-5-G-S-S-U-U is a 5 - gang brass wall plate finished in bronze with patina, built for residential and light commercial wiring where a traditional or vintage aesthetic is specified. The GSSUU configuration combines a GFCI opening, two toggle switch openings, and two USB openings within a single multi - gang plate. Rated for 120V, 15A circuits with a non - waterproof, IP20 enclosure, the plate is UL listed and constructed of solid brass for durability in interior installations. Backed by a 1 - year warranty.
