

5 - Gang Wall Plate, Bronze with Patina, Brass, 120V/15A, UL Listed

- Five-gang configuration with three single-device openings and two blank positions
- Brass construction with bronze with patina finish
- Rated for 120 V / 15 A circuits
- IP20 rated for standard indoor dry-location use
- UL listed
- Backed by a 1-year warranty

OVERVIEW

The C-VTG-BP-5-S-S-S-U-U is a five-gang wall plate finished in bronze with patina, configured with three single-device openings and two unoccupied (blank) positions. It is intended for custom residential wiring installations where a combination of active and unused gang positions is required in a single plate assembly.

Constructed from brass, this plate is rated for 120 V / 15 A circuits and carries an IP20 rating, suitable for standard indoor dry-location applications.

The device is UL listed and backed by a 1-year warranty.
