

Brass Rotary Dimmer Switch, Single Gang, 120V AC, Triac/Leading Edge Dimmable

OVERVIEW

The C-VTG-DI-BG is a single-gang rotary dimmer switch designed for 120V AC residential and light commercial installations. The handcrafted vintage brass plate provides a period-appropriate aesthetic suited for hospitality, boutique retail, and restoration projects. Note that as a handmade brass component, minor chromatic variation between units is inherent to the manufacturing process.

The dimmer operates on a Triac/leading-edge dimming protocol, compatible with standard incandescent and leading-edge dimmable loads. The unit carries an IP20 environmental rating, suitable for dry indoor locations only. Panel dimensions are 72x120mm with an 83.5mm hole spacing. Rated service life is 50,000 hours.

This product is UL listed (File E511941) and backed by a one-year manufacturer warranty.
