

## Vintage Brass Single Rotary Dimmer Switch, 120V AC, IP20, UL Listed

### OVERVIEW

The C-VTG-DI-VB is a single rotary dimmer switch finished in vintage brass, designed for residential and light commercial wiring applications. It supports Triac/leading-edge dimming protocol and is compatible with 120V AC circuits.

The switch carries an IP20 environmental rating, making it suitable for dry indoor locations. Rated plate and faceplate material is brass with a vintage brass finish. Rated service life is 50,000 hours, and the unit includes a 1-year warranty.

This dimmer is UL certified under file number E511941. Installer and specifier should confirm load compatibility with Triac/leading-edge dimmable drivers or lamps prior to installation.
