

## Brass Double Rotary Dimmer Switch, 120V AC, IP20, UL Listed

### OVERVIEW

The C-VTG-DI2-BG is a double rotary dimmer switch designed for 120V AC residential and light commercial installations. The handcrafted brass panel provides a vintage aesthetic in a black and gold finish; note that as a handmade component, minor chromatic variation between units is inherent to the manufacturing process. The plate mounts in a 120x120mm faceplate footprint with an 83.5mm hole spacing, accommodating standard double-gang rough-in configurations.

The dimmer operates on Triac/leading-edge dimming protocol and carries an IP20 environmental rating, making it suitable for dry indoor locations only. Rated life is 50,000 hours, and input voltage is 120V AC.

This product is UL listed and backed by a 1-year warranty.
