

## Satin Brass Double Rotary Dimmer Switch, 120V AC, IP20, UL Listed

### OVERVIEW

The C-VTG-DI2-SB is a double rotary dimmer switch designed for 120V AC residential and light commercial wiring applications. The handcrafted satin brass panel measures 120x120mm with an 83.5mm hole spacing, accommodating standard two-gang installations. The brass construction gives each unit a distinctive finish; as a handmade panel, minor chromatic variation between units is inherent to the manufacturing process.

The dimmer operates on Triac/leading-edge dimming protocol and carries a rated service life of 50,000 hours. The unit is rated IP20, suitable for dry indoor environments only and not intended for wet or damp locations.

This product is UL listed under file E511941. A one-year warranty is included.
