

## Vintage Brass Double Dimmer Switch, 120V AC, UL Listed, IP20

### OVERVIEW

The C-VTG-DI2-VB is a vintage brass double dimmer switch designed for 120V AC residential and light commercial wiring applications. It is available as a custom order and is intended for use with Triac/leading edge dimmable loads, making it compatible with standard dimming installations where a rotary-style control is specified.

The switch is constructed with a brass plate and brass material finish, rated for indoor, non-waterproof environments at IP20. Rated life is 50,000 hours, and the unit carries a 1-year warranty.

This product bears UL certification (file E511941 for the dimmer specification). Note that UL file E313169 appears in the toggle switch section of the datasheet; buyers should confirm the applicable listing for their specific configuration prior to installation.

### SPECIFICATIONS

<b>IP rating</b>	IP20	<b>Rated life</b>	50000 hours
<b>Input voltage</b>	120 V	<b>Warranty</b>	1 years
<b>Dimensions</b>	72x120mm / 120x120mm	<b>Weight</b>	0.5 lb
