

Satin Brass 3-Gang Wall Plate, 120V/15A, Brass Construction, UL Listed

- Three-gang configuration under a single satin brass cover
- Solid brass construction for durability and consistent finish
- Rated for 120V, 15A electrical service
- IP20 ingress protection for indoor, non-wet locations
- UL Listed for compliance verification
- Backed by a 1-year manufacturer warranty

OVERVIEW

The C-VTG-SB-3-G-G-S is a satin brass 3-gang wall plate configured for residence supply applications, combining three openings under a single decorative cover. The brushed satin brass finish suits commercial and upscale residential installations requiring a consistent, professional appearance across electrical infrastructure.

The plate is constructed of brass and rated for 120V, 15A service. It carries a Non-Waterproof environmental rating with an IP20 ingress protection rating, suited for indoor, non-wet locations.

The product is UL Listed and backed by a 1-year warranty.
