

Satin Brass 4-Gang Wall Plate, One Decorator and Three Toggle Openings, 120V 15A, UL Listed

- Satin brass finish over solid brass construction
 - Four-gang configuration with one decorator and three toggle openings
 - Rated for 120V service at 15A maximum current
- IP20 rated for indoor, dry-location, non-waterproof use
 - UL listed for compliance verification
 - Backed by a 1-year warranty

OVERVIEW

The C-VTG-SB-4-D-S-S-S is a satin brass 4-gang wall plate configured with one decorator opening and three toggle switch openings, intended for consolidated device installations in residential wiring applications. The multi-gang faceplate accommodates four devices under a single cover for a unified appearance.

Constructed from brass with a satin finish, the plate is rated for 120V/15A service and carries an IP20 rating, offering protection against solid objects greater than 12mm without specific moisture resistance, suitable for standard indoor, dry-location use.

The plate is UL listed and backed by a 1-year warranty.
