

4-Gang Wall Plate, Two Decorator and Two Toggle Openings, Satin Brass, 120V/15A

- 4-gang configuration with two decorator and two toggle openings
- Satin brass finish for exposed residential installations
- Brass construction for durability at wiring device openings
- Rated 120V/15A for standard branch circuit service
- IP20 rated for indoor dry-location use
- UL listed and backed by a 1-year warranty

OVERVIEW

The C-VTG-SB-4-G-G-T-T is a satin brass 4-gang wall plate configured with two decorator-style openings and two toggle-style openings, suited to residential wiring installations requiring mixed device types in a single gang assembly. The satin brass finish provides a warm metallic appearance for exposed installations.

Constructed from brass, this wall plate carries an IP20 rating for standard indoor dry-location use and is rated for 120V/15A service, consistent with standard residential branch circuit requirements.

The device is UL listed and backed by a 1-year warranty.
