

4 - Gang Wall Plate with GFCI, Duplex and Two Toggle Openings, Satin Brass, 120V/15A

- 4-gang configuration with GFCI, duplex and two toggle openings
 - Satin brass finish over solid brass body
 - Rated for 120V/15A branch circuits
- IP20, non-waterproof environmental rating for indoor use
 - UL listed device
 - Backed by a 1-year warranty

OVERVIEW

The C-VTG-SB-4-G-S-T-T is a satin brass 4-gang wall plate configured with one GFCI opening, one duplex receptacle opening and two toggle switch openings, intended for combined outlet and switch installations in residential and commercial construction. The brass body and satin finish provide a durable cover plate suited to specification-grade projects requiring a consistent hardware appearance across multiple device types. The assembly is rated for 120V/15A circuits and carries an IP20, non-waterproof environmental rating for indoor use. It is UL listed and backed by a 1-year warranty.
