OVERVIEW

The C-VTG-SB-4-G-S-U-U is a satin brass 4 - gang wall plate configured with one grommet opening, one switch opening and two USB openings, built for multi - device wall installations in residential and light commercial settings. It is part of a configurable wall plate line that lets contractors and property managers specify finish, gang count and device openings to match project requirements.

Constructed from brass with a satin finish, the plate is rated for 120 V service at up to 15 A and carries an IP20 rating suitable for dry interior environments.

The device is UL listed and backed by a 1 - year warranty.
