

4-Gang Satin Brass Wall Plate, GFCI, Toggle and USB Openings, UL Listed, 120V/15A

- 4-gang configuration with GFCI, two toggle, and USB openings
- Satin brass finish over solid brass construction
- Rated for 120V circuits at up to 15A
- IP20 rated for standard indoor dry-location use
- UL listed for code-compliant installation
- Backed by a 1-year manufacturer warranty

OVERVIEW

The C-VTG-SB-4-G-T-T-U is a satin brass 4-gang wall plate designed for residential supply applications requiring multiple device types in a single unit. The plate combines one GFCI opening, two toggle switch openings and one USB opening, allowing coordinated control and charging access at a single wall location.

Constructed from brass with a satin finish, the plate is rated for 120V/15A circuits and carries an IP20 rating, indicating suitability for standard indoor dry-location use. The non-waterproof rating confirms it is intended for interior installations only.

The unit is UL listed and backed by a 1-year warranty.
