

Satin Brass 4-Gang Wall Plate, Two Toggle and Two USB Openings, 120V 15A UL Listed

- 4-gang configuration with two toggle openings and two USB openings
- Manufactured from solid brass with a satin finish
- Rated for 120V circuits at 15A maximum current
- IP20 rated for non-waterproof interior applications
- UL Listed for code-compliant installation
- Backed by a 1-year manufacturer warranty

OVERVIEW

The C-VTG-SB-4-T-T-U-U is a satin brass 4-gang wall plate configured with two toggle switch openings and two USB openings, intended for residential and light commercial electrical installations where a coordinated metal finish is required. The build-your-own configuration lets contractors and specifiers match device layouts to project requirements without custom fabrication.

The plate is rated for 120V circuits at 15A and is manufactured from brass with a satin finish for a non-waterproof, IP20 environment. It carries UL Listing and a 1-year warranty, suitable for standard interior wall installations.

SPECIFICATIONS
