- Solid brass construction with a satin finish
- Rated for 120 V and 15 A residential and light commercial circuits
- IP20 rated for indoor, non-waterproof installations
- UL listed for verified electrical safety compliance
- Backed by a 1-year manufacturer warranty

OVERVIEW

The C-VTG-SB-5-D-D-D-G-S is a satin brass 5-gang wall plate configured for three decorator openings, one GFCI receptacle opening, and one toggle switch opening. It is intended for residential and light commercial installations where multiple device types are combined in a single coordinated faceplate.

Constructed from brass with a satin finish, the plate is rated for 120 V and 15 A service and carries an IP20 rating for indoor, non-waterproof applications.

The device is UL listed and backed by a 1-year warranty.
