

5 - Gang Wall Plate, Decorator, Two GFCI and Two Toggle Openings, Satin Brass, 15A 120V

- Configured for one decorator opening, two GFCI openings, and two toggle openings
- Constructed from solid brass with a satin brass finish
- Rated for 120V, 15A residential and light commercial circuits
- IP20 environmental rating for indoor dry-location use
- UL listed device plate
- Backed by a 1-year warranty

OVERVIEW

The C-VTG-SB-5-D-G-G-T-T is a satin brass 5-gang wall plate configured with one decorator opening, two GFCI openings, and two toggle-style openings. It is intended for residential supply applications where a single multi-gang plate must accommodate mixed device types in a unified finish.

Constructed from brass with a satin finish, the plate is rated for 120V, 15A circuits and carries an IP20 environmental rating, suitable for standard indoor dry-location installations. It is UL listed and covered by a 1-year warranty.
