

5 - Gang Satin Brass Wall Plate, 120V/15A, Duplex, Two GFCI, Toggle and USB Openings

- Constructed from solid brass with a satin finish
- Rated for 120V, 15A residential electrical circuits
- UL listed for verified electrical safety compliance
- IP20 rated for indoor, non - waterproof installations
- Configured with one duplex, two GFCI, one toggle and one USB opening
- Backed by a 1 - year manufacturer warranty

OVERVIEW

The C-VTG-SB-5-D-G-G-T-U is a 5 - gang wall plate finished in satin brass, configured with one duplex opening, two GFCI openings, one toggle switch opening and one USB opening. It is intended for residential supply applications where a coordinated, multi - function wall plate is required in a single installation location. Constructed from brass with a satin finish, the plate is rated for indoor use at 120 V and 15 A, suitable for standard residential wiring configurations, and carries an IP20 rating for non - waterproof environments. The assembly is UL listed and backed by a 1 - year warranty.
